Northwest Georgia's One-Stop System... Serving Your Workforce Needs

March 31, 2016

It's Here!

Northwest Georgia recently welcomed its highly anticipated, state-of-the-art and ADA accessible mobile computer lab funded by the Workforce Innovation and Opportunity Act (WIOA). The lab will be used as a mobile career center that will

deliver a variety of job skills and development services to the Northwest Georgia region, while increasing awareness of the services provided by Region 1 Northwest Georgia Workforce Development Board and its partner agencies. More services will be provided to a greater number of individuals and employers, thereby enabling individuals to achieve their highest potential; ensuring employers have the skilled workers they need to compete effectively in the global economy; and capitalizing on the untapped potential of underemployed and discouraged workers, youth and other job seekers with special needs.

[For scheduling and more information...](#)

WIOA WORKS!

Career advisors, case managers, program administrators, educators, and the list goes on, work diligently to administer federal training funds to eligible youth, adults, and dislocated workers so they can achieve a

better life through productive employment. Rarely do we see the results of their efforts or the return on the investment of time and tax dollars. **WIOA WORKS!** is a new feature that will highlight success stories about real people in the northwest Georgia region whose lives have been changed by Workforce Innovation and Opportunity Act (WIOA) funded education, training, and support.
