

The Bottom Line

The Northwest Georgia Workforce Investment Board (WIB) can help you find qualified workers and reduce your training and retention costs.

We train more than 1,000 workers each year through the local colleges and through our on-the-job training program. We carefully screen our trainees to ensure they meet your qualification criteria before referring them to you for employment. We also ensure our trainees understand the work ethic desired by today's employers, thereby reducing your turnover costs.

Through our On-the-Job Training program, we can pay you for up to one-half of the wages you pay the trainee while he or she is in training at your company. The payment helps you recover some of the extraordinary costs associated with training new hires.
