GVRA	NO	YES	YES – Existing GVRA Rome and LaFayette facilities
GDOL	YES	YES	YES – Six existing Career One-Stop Centers will continue to be available
DFCS	NO		

There was discussion regarding the available locations for housing a Comprehensive One-Stop Center. Lisa Adkisson stated that Nancy Meeden may be able to provide information on costs per staff member at the various locations or the other ideas on a cost allocation model.

Cathy Corley reported that there are fewer than 50 TANF recipients in the seventeen county region. She stated that she would get exact numbers for the fifteen county region and provide those to the group. Based upon this, Gwen Dellinger suggested that the Consortia ask the WDB to request a waiver from the State for the requirement that TANF be a partner in the One-Stop System. Connie Smith made the motion to approve this suggestion and recommend it to the WDB for approval. Paul Ray seconded. Motion carried unanimously.

Ms. Dellinger informed those present that the State had suggested that the local workforce areas begin working on the planning process. A five-year plan will be required. She asked that each partner assist staff in this process since the Regional Development staff will not be able to possible all the impact needed for each of the partner.

There being no further information, the meeting was adjourned.
